

- **Low power consumption TV with LED backlight**
- **Optimized for Operation with Lilio Solar 12.8V battery systems**
- **Various data inputs available**
- **DVB-T2/S2, ISDB-T and Analog TV version available**

TV case can modify without prior notice

Zimpertec's LED Backlight TV with its low power consumption is ideal for Solar Home System applications.

The wide input voltage range can guarantee safe operation with 12V Battery systems. The power wire input is ideal for Zimpertec's Plug & Play technology.
